

FULL STACK DEVELOPER

[m/f/x]

jobs.schachzug.de

**It can never be innovative enough for you?
Then you came to the right place.**

With us, you can expect a two-layer model. On the one hand you will work in our own projects such as the relaunch of our website or the further development of our systems. On the other hand, we have exciting customer projects such as AI-supported experiences that allow you to constantly explore new territory.

Here's how you score points with us:

- _ good understanding of usability and user-centricity
- _ at least 1 year of experience as a full stack developer
- _ logical understanding and creativity in finding solutions
- _ open mind: open to innovation & always on the pulse of digital development
- _ good to very good English skills
- _ desire for teamwork, team culture and team events

What does SCHACHZUG have to offer?

- _ Agility in our mindset, in our processes
- _ Flexibility presence, remote & home office possible
- _ Integration communication at eye level
- _ Well Being job bike leasing, gym membership fee, sport coaching
- _ Awareness sustainability in purchasing, in our projects, social & environmental commitment
- _ Culture creating the New New, team spirit, coaching, team events, after work activities
