

SYSTEM ADMINISTRATOR

[m/f/x]

jobs.schachzug.de

We put our IT in your trustworthy hands.

Are you passionate about technology, software, and hardware? We highly value you as our system administrator because without you, there would be no data, no network, and no internet... In addition, as TISAX representative, we entrust you with our prototype protection.

Here's how you score points with us:

- _ experience in setup and administration of Linux servers and Mac clients
- _ knowledge of virtualizing existing servers and services via AWS
- _ skills in building and maintaining network infrastructure
- _ responsible handling of documentation and security measures
- _ logical understanding and creativity in finding solutions
- _ minimum 1 year of professional experience
- _ desire for teamwork, team culture and team events

What does SCHACHZUG have to offer?

- _ Agility in our mindset, in our processes
- _ Flexibility presence, remote & home office possible
- _ Integration communication at eye level
- _ Well Being job bike leasing, gym membership fee, sport coaching
- _ Awareness sustainability in purchasing, in our projects, social & environmental commitment
- _ Culture creating the New New, team spirit, coaching, team events, after work activities
